Wheels of Love 2021 Cancellation Policy

From the moment you register for the Ride, and in particular the closer we get to the Ride itself, ALYN starts incurring expenses, most of which are non-recoverable in the event that you cancel. The total cost to ALYN per rider is in excess of \$2,000. For that reason, in order to maximize the benefit for the children of ALYN, we have instituted the following cancellation policy.

Registration Fee

- Registration Fee is non-refundable. If a rider registers, and is not able to ride, then his or her registration fee will be used to defray the general expenses of the Ride. If the Rider requests, ALYN will hold the registration fee on the rider's behalf to apply to the next year's Ride. If the cost of registration rises for the next year's Ride, the Rider will be asked to pay the difference between the registration fee that he\she paid for the previous year's Ride and the actual registration fee for the next year's Ride. Under no circumstances, will a registration fee be held for more than one year for another Ride.
- COVID-19 - If you are unable to participate due to restrictions related to COVID-19, you can choose one of the following three options for the registration fee:
 - a) Supporting the children of ALYN: You can convert any refund to which you may be entitled into a donation. If requested, a tax-deductible receipt will be provided by the end of the year.
 - b) Registration for WOL 2022: At the rider's request, the full registration fee can be transferred to register for WOL 2022.
 - c) Request for refund of registration fee according to the following conditions:
 - Cancellation notice received by the Ride by August 25, 2021, full refund of registration fee
 - No refund will be given for cancellation notices received after August 25, 2021
 - Notwithstanding the above, if the reason for cancellation after August 25, 2021 is because of COVID-19 restrictions in the country of origin or in Israel, or because ALYN cancels the Ride, the registration fee will be available for refund, and the balance can be applied as provided above.

Minimum Fund Raising Goal

- The primary objective of Wheels of Love is to raise funds for ALYN while providing our Riders with an extraordinary Ride experience.
- Accordingly, once a rider registers for WOL, the rider becomes a committed rider and is fully responsible for raising the fundraising minimum, whether or not the rider ultimately participates in the event.

ALYN HOSPITAL

- Failure to raise the minimum amount will affect the rider's ability to participate in future rides and other ALYN Special Projects events.

Exceptional Cases

- In the event that a rider cancels his or her participation in the Ride by or after September 25, 2021, all donations that have been raised will remain with ALYN, and cannot be credited to another year or to another rider participating in the Ride. However, in the event that the amount the rider has raised is less than their fundraising minimum, the rider will not be required to meet the minimum fundraising goal.

Please acknowledge your agreement to the above conditions by checking the box indicated below.
